RE: APPRECIATION.

Thank you very much for your valuable visit to Tanzania particularly Arusha Vocational Education and Training Centre. We felt very proud to be visited by the Virgin Media group.

Teaching and learning is one of the most delightful activities in life when it is carried out in accordance with a well structured education system. Vocational Education and Training Authority (VETA) is one of an Autonomous Government agency which imparts skills and knowledge to its trainees that they may either get Formal or Informal Employment.

I wish to express my deepest gratitude to Meserani Project coordinator Mr. Peter and his wife Diane for connected Arusha Vocational Training Centre with the Virgin Media group from England. However special thanks should go to Virgin Media group Leaders for their moral and material support to our Centers. You sincerely provided us valuable items and tools, 13 laptops, two projectors, speakers, wireless mouse and Electrical tools.

We are proud of having 8 trainees from Meserani project, they are very friendly and capable of their field.

I take this opportunity to humbly welcome you again believing that our connection will be useful to all of us.

On behalf of; **ARUSHA VOCATIONAL EDUCATION AND TRAINING CENTRE**

B. D. Mrefu
